

# Embark on an underwater journey...

**AQWA's great southern coast**  
Venture into the icy waters of the Southern Ocean and come face to fin with intriguing creatures.

**AQWA's shipwreck coast**  
Surround yourself with sharks, stingrays and turtles in Australia's largest walk through aquarium.

**AQWA's Perth coast**  
Explore Perth's amazing coastline of ancient reefs and sandy bays.

**AQWA's far north coast**  
Explore one of the worlds most remote regions, home to dangerous marine animals and colourful tropical lagoons.

**AQWA's DANGERZONE**  
Face a deadly line up of marine creatures that can sting, bite or wrap their prey with suckered arms.

**AQWA's Marmion Marine Park**  
Interact with live animals at AQWA's touch pool, then visit stingray bay and relax by a coastal lagoon.

**AQWA's Coral Reef**  
Overlook a living coral reef then travel from the shore to the bottom of the sea in AQWA's Underwater Gallery.

# Ocean Activities

Enhance your visit with an additional activity that will educate, enthrall and entertain.

## Kindy - Yr 3

### Create a Creature \*

Embark on a journey of discovery to create a creature by learning the secrets of shape and colour.

### Mysteries of the Shark \*

Uncover the amazing features of a shark as a member of your class slowly becomes one!

### Curiosity Cabinet \*

Explore our collection of amazing marine animal artifacts and uncover their stories in this fun filled session of discovery.

## Yr 4 - 7

### Shark Sense \*

A hands on feast for your senses as you investigate how a sharks' senses compare to ours.

### Sandcastle Science\*

Discover fish fashion trends for life in and amongst the sand, take the strong sand challenge, then create an underwater sandcastle!

### Reef Explorer \*

Zoom in on the awesome underwater world of the coral reef to discover the important roles different animals have in these cities of the sea.

## Secondary

### Ocean Origins \*

An insight into the world of biotechnology and the latest scientific discoveries inspired by the amazing features of marine life.

### Weird Relations \*

Got a tongue lined with teeth? Discover the most interesting features used for classification in a presentation that showcases the marine life at AQWA.

### Fishy Affairs \*

An unforgettable presentation introducing your students to the diverse, unique and occasionally bizarre range of reproductive strategies used by marine animals.

## All Ages

### Shark Sack \*\*

Decorate your own environmentally friendly bag as your ocean guide reveals more about AQWA's marine life, in this fun filled creative craft activity.

### Beach Detective \*\*

Investigate a seaside search area and examine evidence of marine life to uncover clues about the local marine environment. Secondary students take it a step further using a dichotomous key to look at what is washed up on the shore and discussing different beach uses.

## Ultimate Experiences

### Ocean Safari

Join AQWA Adventures on an exclusive once in a lifetime encounter with the marine mammals of the Marmion Marine Park.

### Snorkel or Dive with Sharks

Plunge into the beautiful world of AQWA's Shipwreck Coast aquarium and come face to fin with sharks, stingrays, turtles and hundreds of stunning fish.

### Functions Overlooking the Ocean

Celebrate your school ball in one of the most spectacular ocean-side venues in Perth. You can even begin your evening with exclusive access to AQWA's exhibits.
