By submitting artwork for this activity, you hereby grant the organizers the non-exclusive right, at their sole discretion, to use, display and reproduce your submitted artwork for promotional and marketing purposes associated with this event. Not all submissions will be used, and the organizers are under no obligation to use or display any specific artwork.

CLIMATE CHANGE IS IMPACTING MARINE ECOSYSTEMS ACROSS THE GLOBE.

For International Climate Action Day this October, we are encouraging our youngest visitors to put pen, pencil or crayon to paper and draw their favourite marine creature. A selection of drawings will be displayed here, plus at the site of our newest aquarium currently under development in Berlin.
